# Pavilion dm3-3010us Notebook PC

**Quite possibly the coolest notebook on the planet.**

What makes the HP Pavilion dm3 notebook so cool? For starters, it delivers the functionality you told us you wanted in a full-performance thin-and-light PC—long battery life and a comfortable, quiet computing experience. Its breakthrough design includes a magnesium-aluminum alloy case accented by matte black soft-touch surfaces. Inside the sleek exterior is the exclusive new HP CoolSense technology: advanced design, materials and software that automatically work together to keep you more comfortable. How cool is that?

Windows®. Life without Walls™.
HP recommends Windows 7.

The HP Pavilion dm3 delivers all the performance you need with nothing to weigh you down. Enjoy streaming video, music, photos and more with the power of Intel® dual-core[2a] , low-voltage processors. Lots of hard drive storage lets you take what you want wherever you go. And built-in HP ProtectSmart Hard Drive Protection, Norton Online Backup[38], and HP Recovery Manager software help protect you and your content.

- Cover basic computing tasks without sacrificing battery life with the Intel® Pentium U5400 processor.
- Enjoy a great visual experience with Intel® HD Graphics.[8]
- Get up to 7 hours and 30 minutes of life with the 6-cell 62WHr Li-Ion battery. [28]

## Our coolest notebook ever.

Less than 1" thin and starting at just 4 pounds,[12] the HP Pavilion dm3 features new soft-touch surfaces that make it easy to grip and carry. Innovative HP CoolSense technology senses your comfort by automatically adjusting thermal settings to operate noticeably cooler when in use away from your desk. It enables you to override the automatic cooling function through the HP Thermal Assistant app. What makes the HP Pavilion dm3 arguably the coolest notebook on the planet? A complete redesign with changes in key component and vent locations.

## Style comes standard.

Sleek new styling includes a premium metal alloy chassis with resilient soft-touch coating for a look that invites attention even when your notebook is closed. Open the HP Pavilion dm3 and revel in its 13.3" diagonal, High-Definition[8] HP BrightView LED display held securely by the etched aluminum alloy bezel.[7] On-screen organization takes a giant leap forward with new Fences software that keeps your desktop clean and clutter-free. The island-style keyboard responds effortlessly and one-touch action keys let you easily adjust sound, brightness, and other settings.
